# EU REACH Services

## What is EU REACH?

REACH stands for Registration, Evaluation, Authorization and Restriction of Chemicals. It was implemented on June 1, 2008. According to the REACH regulation, companies that are importing or manufacturing chemicals within the European Union (EU) are responsible for registering these substances. On completion of registration, an 18-digit registration code will be issued to the registrant. Now that the last registration deadline has passed, companies must complete full registration prior to manufacturing or importing chemicals into the EU.

## Who Can Register?

- An EU-based legal entity
  > Any EU-based legal entity is entitled to process their own EU REACH registration.
- A non-EU legal entity
  > Must appoint an Only Representative (OR) to complete the registration on their behalf.
  > Only manufacturers and formulators are eligible to appoint an OR.
