K-REACH Services

On January 1, 2021, the Act on Registration and Evaluation of Chemicals, also known as the amended K-REACH officially came into force. According to the requirements of the amended K-REACH, all existing substances exceeding one ton per year (1t/y) manufactured or imported into South Korea must complete a K-REACH registration.

K-REACH Late Pre-registration

In accordance with the requirements of the amended K-REACH, if the volume of existing chemicals (excluding substances listed in the first batch of the registration list) were manufactured in or imported into South Korea in quantities exceeding 1 t/y during the last three years, after June 30, 2019, (the end date of pre-registrations) late pre-registration must be submitted. After late pre-registration is completed, the related enterprise can enjoy the corresponding grace period.

Process for K-REACH Late Pre-registration

- Self-declaration on the export volume during the last three years;
- Filling in substance information survey;
- Confirming contract and power of attorney (POA) (only applicable to non-Korean enterprises);
- Preparing late pre-registration dossier;
- Sending late pre-registration number and completion notice; and
- Maintaining late pre-registration and updating information (if necessary).

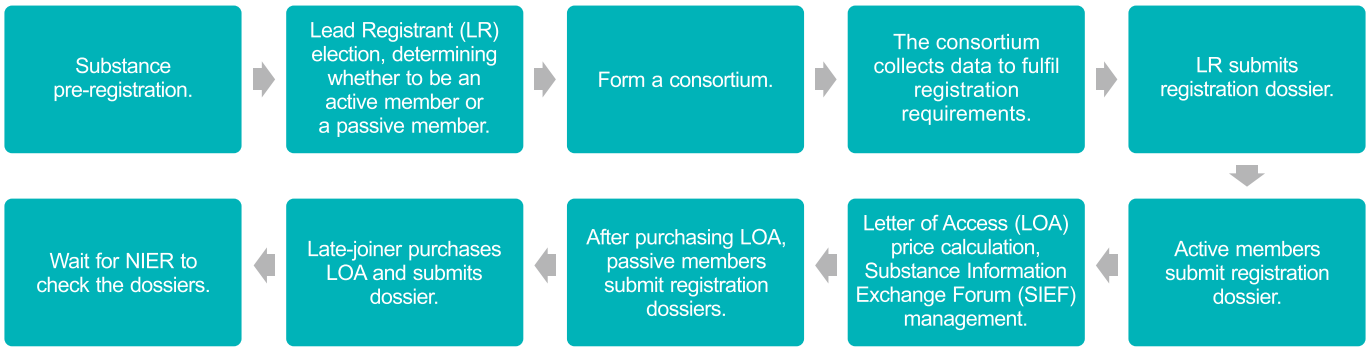

Note:

The South Korean Ministry of Environment (MoE) suggests that related enterprises can determine the late pre-registration tonnage based on the average volume over the last three years.

Non-Korean manufacturers must entrust a legal entity based in South Korea as its Only Representative (OR) to comply with the obligations under K-REACH, including late pre-registration, registration, and products notification.

K-REACH Registration Process

Why Choose CIRS?

We provide one-stop regulatory compliance services tailored to your needs.

We have a dedicated local team with in-depth knowledge and experience.

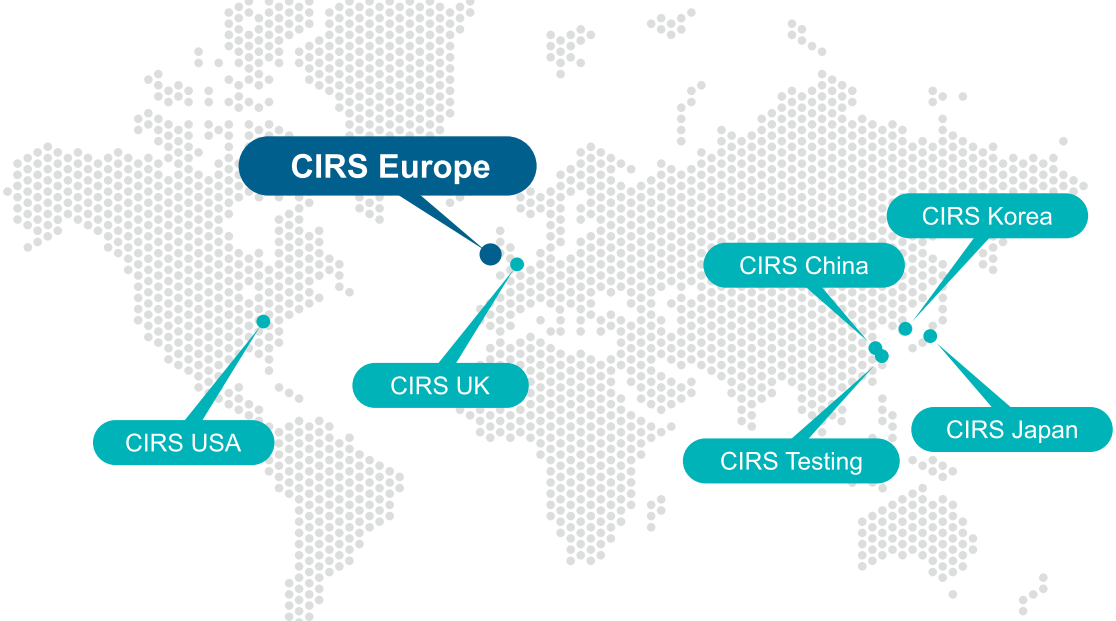

We have completed more than 3,000 pre-registrations under K-REACH to date.

We maintain excellent partnerships with industry-leading laboratories and service providers.

CIRS Services:

- K-REACH Only Representative;
- K-REACH late pre-registration;
- K-REACH registration;
- New substance notification, and registration;
- K-REACH registration exemption application;
- Risk assessment report;
- K-REACH technical report; and
- K-REACH on-site and online training.
